

Please post in your department!

Attention teachers of physics, chemistry, physical science, & math!

For summer 2019, ASU offers a program of courses
for your professional development. 3-D learning!

These are ideal courses to meet re-certification requirements, qualify to teach Dual Enrollment/Adjunct two-year college (TYC), and become highly qualified (ESSA) in physics or chemistry. They can count towards the ASU interdisciplinary *Master of Natural Science* degree (MNS) in physics, & graduate degrees in education. TYC, CTE, and pre-service teachers find these courses useful, too.

* Apply NOW for a partial tuition scholarship:

<https://physics.asu.edu/content/partial-tuition-scholarship-mnsmodeling-instruction-courses>

* or reserve a seat NOW for Continuing Ed. (\$400; need not apply to ASU. \$200 if out-of-pocket).

<https://physics.asu.edu/content/modeling-instruction-application-reserve-seat-ceu>

Modeling Instruction is designated as an *Exemplary K-12 science program & Promising Technology program* by the U.S. Department of Education. It is rated an *Accomplished STEM program* by Change the Equation. It won the "Excellence in Physics Education" award of the American Physical Society.

Modeling Workshops: (3 credits)

June 10-28: (on Tempe campus. MTWTh 8am-3:30pm. 8am - noon on Fridays)

PHS 530/PHY 480: Methods of Teaching Physics I: mechanics (Jeff Steinert, instructor. PS-H356)

PHS 594/PHY 494: Modeling Workshop in CASTLE Electricity (Agatha Andersen, instr. PS-H357)

CHM 594/CHM 480: Modeling Instruction in Chemistry I / Methods of Teaching Chemistry I

(Mitch Sweet, instructor. June 10-27. MTWR 8am-4:30pm. PS-H366. *FULL. WAITING LIST!*)

July 8-18: CHM 594: Modeling Instruction in Chemistry II (2 cr. Levi Torrison. M-F 8-3:30 PS-H357)

July 1 – Aug 1 courses:

PHS 560/CHM 560: Matter and Light (1:00-3:30pm MTWR. Robert Culbertson, instructor. PS-H356)

PHS 550: Physics and Astronomy (4 – 6:30pm MTWR. Carl Covatto, instructor. PS-H355)

PHS 598: Leadership Workshop (4 Fridays at 1:10. June 14&21, July 19&26. Jim Archambault. 1 cr)

Visit <http://physics.asu.edu>, hover on "Admission", scroll down to MNS Admission or Modeling Instruction Program. For more information, visit <http://modeling.asu.edu> and click on *ASU Summer Graduate Program for Teachers of Physical Sciences*. For help with tuition scholarships, CEUs, or family and dorm housing, e-mail Jane.Jackson@asu.edu, 480-314-1522. If you want grad credit, apply to ASU as a nondegree summer grad student (\$70 appl fee) at least 2 weeks before your course begins - - no transcripts needed. Register for your course after May 18, but at least 1 week before course begins.
