

# MODELING WORKSHOP

## CHEMISTRY I PHYSICS I

The Cal Poly Center for Excellence in STEM Education (CESAME) and The Western Regional Noyce Initiative are pleased to offer 2 concurrent 2-week professional development course in chemistry and physics.

These workshops are structured inquiry approaches to high school chemistry and physics teaching that incorporate computer technology and insights from the Common Core State Standards, Next Generation Science Standard & current education research.

Physics I (Mechanics) and Chemistry I are open to secondary educators who are interested in Modeling.

**JULY 8 – JULY 19, 2019**

Cal Poly, San Luis Obispo

### REGISTRATION

Early Bird (\$450 last day May 31)

Regular (\$475 June 1 - June 14)
